Two of America's most talented activists team up to deliver a bold and hilarious satire of modern environmental policy in this fully illustrated graphic novel. The U.S. government gives robot machines from space permission to eat the earth in exchange for bricks of gold. A one-eyed bunny rescues his friends from a corporate animal-testing laboratory. And two little girls figure out the secret to saving the world from both of its enemies (and it isn't by using energy-efficient light bulbs or biodiesel fuel). As the World Burns will inspire you to do whatever it takes to stop ecocide before it's too late.
