In this colorful Garden Ponds Made Easy title, authors Dennis Kelsey-Wood and Tom Barthel have provided an essential guide for first-time pond enthusiasts. The authors outline all of the considerations for starting out with a new pond, including determining the site, style, size of the pond, and deciding on the construction of the pond (whether preformed, concrete, or fiberglass). Garden Ponds offers a chapter on water which discusses water chemistry factors, volume of the pond, and pond surface. The infinite choices involved with stocking the pond with fish and plants can be overwhelming for the first-time pond owner, and the authors give excellent advice about making smart choices for a harmonious, beautiful garden pond. A special chapter on seasonal pond care gives the pond keeper recommendations for maintaining the pond all year long. Resources and glossary included.
