Toxic Bedrooms

Walter Bader

Toxic Bedrooms Walter Bader

Your bedroom should be a safe haven, but unfortunately more and more research is revealing that the bedroom may be one of the most toxic places in the home. Consider that the average conventional mattress contains more toxic chemicals than a 50 gallon oil drum, and that our skin, the largest organ of the body, is also the most porous entry point. It is no wonder that chemicals found in mattresses, known to cause toxic reproductive effects, are regularly being found at significant levels in human blood samples. Walter Bader outlines the dangers of the toxic threats lurking in the home so that, armed with knowledge, you can defend yourself and your family against them.
