#### **Optimization Modeling with Spreadsheets** Kenneth R. Baker

#### An accessible introduction to optimization analysis using spreadsheets

Updated and revised, Optimization Modeling with Spreadsheets, Third Edition emphasizes model building skills in optimization analysis. By emphasizing both spreadsheet modeling and optimization tools in the freely available Microsoft® Office Excel® Solver, the book illustrates how to find solutions to real-world optimization problems without needing additional specialized software.

The *Third Edition* includes many practical applications of optimization models as well as a systematic framework that illuminates the common structures found in many successful models. With focused coverage on linear programming, nonlinear programming, integer programming, and heuristic programming, Optimization Modeling with Spreadsheets, Third Edition features:

- An emphasis on model building using Excel Solver as well as appendices with additional instructions on more advanced packages such as Analytic Solver Platform and OpenSolver
- Additional space devoted to formulation principles and model building as opposed to algorithms
- New end-of-chapter homework exercises specifically for novice model builders
- Presentation of the Sensitivity Toolkit for sensitivity analysis with Excel Solver
- Classification of problem types to help readers see the broader possibilities for application
- Specific chapters devoted to network models and data envelopment analysis
- A companion website with interactive spreadsheets and supplementary homework exercises for additional practice

Optimization Modeling with Spreadsheets, Third Edition is an excellent textbook for upper-undergraduate and graduate-level courses that include deterministic models, optimization, spreadsheet modeling, quantitative methods, engineering management, engineering modeling, operations research, and management science. The book is an ideal reference for readers wishing to advance their knowledge of Excel and modeling and is also a useful guide for MBA students and modeling practitioners in business and non-profit sectors interested in spreadsheet optimization.

#### From reader reviews:

#### **Melanie Tuck:**

Do you have favorite book? Should you have, what is your favorite's book? E-book is very important thing for us to learn everything in the world. Each book has different aim or maybe goal; it means that guide has different type. Some people feel enjoy to spend their time and energy to read a book. They are really reading whatever they get because their hobby is actually reading a book. How about the person who don't like studying a book? Sometime, man feel need book once they found difficult problem or even exercise. Well, probably you'll have this Optimization Modeling with Spreadsheets.

#### Mary Barker:

The publication untitled Optimization Modeling with Spreadsheets is the publication that recommended to you to study. You can see the quality of the e-book content that will be shown to a person. The language that article author use to explained their ideas are easily to understand. The copy writer was did a lot of study when write the book, so the information that they share to your account is absolutely accurate. You also will get the e-book of Optimization Modeling with Spreadsheets from the publisher to make you far more enjoy free time.

#### **Melody Grissom:**

Your reading sixth sense will not betray you actually, why because this Optimization Modeling with Spreadsheets guide written by well-known writer who knows well how to make book that could be understand by anyone who else read the book. Written throughout good manner for you, dripping every ideas and producing skill only for eliminate your own personal hunger then you still skepticism Optimization Modeling with Spreadsheets as good book not only by the cover but also by content. This is one guide that can break don't evaluate book by its deal with, so do you still needing an additional sixth sense to pick this kind of!? Oh come on your studying sixth sense already alerted you so why you have to listening to an additional sixth sense.

#### **Gayle Meek:**

Reading a e-book make you to get more knowledge as a result. You can take knowledge and information from the book. Book is prepared or printed or descriptive from each source which filled update of news. With this modern era like right now, many ways to get information are available for anyone. From media social similar to newspaper, magazines, science reserve, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Isn't it time to spend your spare time to open your book? Or just looking for the Optimization Modeling with Spreadsheets when you required it?
