The Public Administration Casebook Robert A Cropf

The Public Administration Casebook is a practice-based collection that speaks to the lived experience of students and prepares them to become more effective practitioners of public and non-profit sectors by providing case studies arranged around major themes in public administration.

Key Features:

- The 14 case studies are organized by main themes of public administration including **political context of public administration, bureaucracy and organizational structure, organizational culture, leadership, human relations administration, budgeting, ethics, and decision making.**
- Since they reflect actual experience, each case contains one or two secondary themes **illustrating how the fundamental concepts and issues that students learn about function in concert in the real world.**
- Students worked with the text authors to create, develop, and write each of these case studies so that **the material better reflects current workplace realities** and therefore results in a more meaningful learning experience for everyone.
- The focus on students **provides a teaching case methodology** that serves as an easily adaptable model for other instructors.
