Used by itself, or as companion to Dental Anatomy: A Self-Instructional Program, this self-paced learning tool contains the fundamental principles of head and neck histology and anatomy. Organized into two major sections, Histology and Anatomy, this text covers topics that include embryology and tooth development. Self-paced questions, end-of-chapter review tests, and unlabeled anatomical and histologic drawings promote student retention of important facts and concepts. Dental students, dental hygiene students, and dental assisting students.
