It's two minutes to 8:00. Time to put on your tights and cape.

As an educator, every time that bell rings, you face dozens of challenges. Students with overwhelming personal and academic needs. Creativity-stifling mandates. Administrivia. Cynicism. Apathy. The things that keep you from being the educator you want to be.

The FISH! Philosophy -- four simple principles: Be There, Play, Make Their Day, and Choose Your Attitude -- has helped educators around the world build more effective, fulfilling relationships that lead to better learning. It is also backed by tons (OK, about a hundred pounds) of research on classroom management.

Schools of FISH! is full of inspiring and instructive stories about people just like you -- with hopes and challenges just like yours. It's about real-life heroes who give the best in themselves to help their students find the best in *themselves*.

Schools of FISH! offers practical ideas on classroom management. It addresses the issues you deal with every day: improving learning, respect and personal accountability, self-discipline and internal motivation, and finding ways to make learning more fun. Because you're not just teaching students to learn . . . you're inspiring them to *want* to learn.
