Ecological Landscape Design and Planning Gloria Pungetti Jala Makhzoumi

Based on both research and practical experience, *Ecological Landscape Design and Planning* offers a holistic methodological approach to landscape design and planning. It focuses on the scarcity of natural resources in the Mediterranean and the need to aim for long-term ecological stability and environmental sustainability. The principles of this approach, therefore, can be used as a theoretical foundation for holistic landscape research, creative ecological design and better sustainable practice development.
