All the Right Places Brad Newsham

"When seeing a new place, often think, I am. Going to come back here later -- when I am rich, or when I have more time, or when I have a purpose, or when I am with someone I love -- and I do this right. But it is self-deception. More often than not, my feet lead me somewhere new rather than somewhere I've already been. And as I sat at that window watching the train bore through the heart of Gina, I had a different, more truthful thought, and I wrote it down: 'I better remember what this place looks like, I will never be back.'" In **ALL THE RIGHT PLACES**, Brad Newsham shares these memories. This moving, lyrical account of a young American's adventures backpacking, hiking and biking through China, Japan, and Russia vividly re-creates the experience of traveling light through a variety of exotic landscapes. When Brad Newsham's wife asks him for a divorce, he is shaken by the realization that his life is not nearly as perfect as he thinks. In order to come to grips with this change, he decides to quit his job, give up his apartment, and travel. He travels through Japan, visiting both the fast-paced Tokyo and the quiet, tranquil countryside. He climbs Mount Fuji. He meets a variety of people, even though he speaks no Japanese. Next, he travels to China, where against the backdrop of a country pushing toward modernization, he finds the strength to reflect on the changes in his personal life. He meets fellow travelers and shares their stories. His journey ends in Russia, where he reveals a bit of the essence of a nation so often camouflaged by rhetoric and propaganda. Much more than a journalistic recounting of sights and stories, **ALL THE RIGHT PLACES** is replete with the essence of traveling, the spirit of adventure required to experience, rather than visit a foreign land. Brad Newsham shares both the excitement and the drudgery of travel in a book certain to inspire every reader to plan his own journey in search of the "right places."
