Dr. Kent and Amber Brantly (with David Thomas) tell of Dr. Brantly's near-death encounter with the Ebola virus in Liberia. The first American diagnosed during the 2014 outbreak, Dr. Brantly's ordeal - including his controversial evacuation to and hospitalization in the United States - received worldwide media attention. Interspersed in the account is the full story of how both Kent and his wife, Amber, sought to serve others in the name of Christ in Liberia. Then, when tragedy struck - as thousands, perhaps millions of people worldwide prayed for his life - miraculous events unfolded that resulted in Dr. Brantly's flight to Emory University Hospital in Atlanta...and an eventual clean bill of health.
