Handbook of Participatory Video E-J Milne Ph.D, Claudia Mitchell, Naydene de Lange

Participatory video is a growing area of research and an increasingly popular tool among practitioners, researchers, and NGOs working with communities around the world. The *Handbook of Participatory Video* advances the field, engaging critically with it as a research methodology and method and interrogating assumptions about its emancipatory nature and potential for social change. In twenty-eight chapters, contributors examine historical, ethical, methodological, and technical aspects of participatory video and discuss power, ownership, and knowledge production. The *Handbook* is organized into six parts: Locating Participatory Video, Participatory Video as a Critical Research Methodology, Working with Visual Data, Power and Ethics in Participatory Video, Dissemination and Reaching New Audiences, and Communities and Technologies. This benchmark work takes an interdisciplinary and global approach and will be invaluable to researchers, practitioners, and students.
