## **Effective Teaching of Secondary Science, The (Effective Teacher, The) John Parkinson**

*The Effective Teaching of Secondary Science* encourages the trainee teacher to develop effective skills for teaching science to secondary school pupils. The comprehensive coverage of topics and issues provides good foundations for trainee teachers who are encouraged to test and evaluate different techniques. Practical advice is offered in areas such as lesson planning, the preparation of worksheets, planning practical activities and safety in the laboratory. The book also discusses the use of information technology as well as multicultural and gender issues and the teaching of pupils with special needs.

Much of the work covered is underpinned by areas of educational research such as educational theory and psychology and sociology of education. Information on the requirements of the national curriculum and on post-16 science courses is given and includes a number of assessment techniques for the problematic area of assessing science attainment target 1.
