This guide is designed to prepare students for the National Health Unit Coordinator Examination. Multiple-choice questions cover theory and practice, giving readers the opportunity to confirm their knowledge of admitting and discharging patients, co-ordinating activities, transcribing doctor's orders and more. Answers and rationales are provided, so students not only know if their answers are correct, but why. Information boxes, updated questions and new coverage should make this edition more readable, relevant and practical. Also new to this edition is a chapter on hospital experiences and problem solving.
