Taking a fresh and modern approach to the subject, this fully revised and restructured textbook provides everything necessary to gain a good understanding of international commercial litigation. Adopting a comparative stance, it provides extensive coverage of US and Commonwealth law, in addition to the core areas of English and EU law. Extracts from key cases and legislative acts are designed to meet the practical requirements of litigators as well as explaining the ideas behind legal provisions. Significant updates include new material on the recast of the Brussels I Regulation, the impact of EU law on choice-of-court agreements and arbitration agreements, and controversial decisions on antisuit injunctions.
