A teenage boy on trial can see and heal the human light fields, drawing comparisons to a messiah while the world argues over his case. Sequel to The Little Universe.

Australia 2150 AD

Jim experiences a soul transfer with the body of a 15 year old boy who died in an accident while running from a crime. Jim is revived in the hospital with amnesia and brain damage that affects his pineal gland and vision processing. Too much dimethyltryptamine (DMT) is produced, a naturally occurring neurochemical that causes dreams and spiritual hallucinations. His vision is permanently altered so that he can see the chakras and auras of people as well as his own luminosities. In time he learns to work with these light fields and becomes a miracle healer, drawing comparisons to a messiah. All the while he's on trial for a crime he didn't commit.

As his case becomes a source of global interest, two things become clear: a brutal rape occurred and he can now heal others by touch. As the environment reaches a frenzy, everyone wants a part of Jim. Nurses want to sleep with him, endorsements come from every angle, skeptics come to debunk him, patients need his healing touch, and still others want to train him to use his gifts and become the teacher he was destined to be. A story of religion and spirituality, the courts of justice and the power of love.
